

**OUT OF THE EARTH – LYRICS (FULL)**

**Chorus**      Out of the earth comes shining light  
                  And with it, the future, burning bright  
                  Running through the air  
                  Swimming through the sky  
                  Visions that we share  
                  Ideals we all like  
                  Out of the ancient earth...

**Post-chorus** First, paint the picture, second, set the stage,  
                  My friend, extend your hand and turn the page.  
                  Just close your eyes, you'll truly be amazed,  
                  My friend, extend your hand and turn the page.

**Refrain**      What do you see now oo-ah?  
                  What do you see now oo-ah?  
                  What do you see now oo-ah?  
                  What do you see now?

## OUT OF THE EARTH – LYRICS (SHORT)

**Post-chorus** First, paint the picture, second, set the stage,  
My friend, extend your hand and turn the page.  
Just close your eyes, you'll truly be amazed,  
My friend, extend your hand and turn the page.

**Refrain** What do you see now oo-ah?  
What do you see now oo-ah?  
What do you see now oo-ah?  
What do you see now?
